Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

After landing, the pilot exited runway 36 via rwy 29 with intentions to taxi on taxiway Alpha to the t-hanger complex on the NW of the field. After exiting the landing runway, the engine stalled. An attempt to restart was made that failed and pilot then noticed smoke. He and his pax exited the aircraft and sought help from the city FBO. Upon arrival, the aircraft engine component was found fully ablaze. The staff used three fire extinguishers to extinguish the fire.

Pilot Statement from Christopher Hope:

Two seat aircraft, two on board. PIC Christopher Hope. Route of flight had been sight seeing in local area, with a landing at KLXT. All normal indications until roll-out on landing. While slowing down to turn off the active runway, I pulled the throttle to idle. The engine quit. We tried one restart and then saw smoke coming from the air intake. I directed my passenger to go to the maintenance hangar for help, which she did. While she was doing that, i could see that there were some flames in the engine compartment. I pulled the plane off of the active runway and waited for personnel to arrive with fire extinguishers. This took approximately five minutes. They used the fire extinguishers to put out the flames. Afterwards, we pulled the airplane by hand to a parking spot on the ramp and secured it.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
