SUBJECT Accident of Cessna 172, N860TW at Northeast Philadelphia Airport (KPNE)			
DIGEST			
Interview was conducted with witness of accident involving N860TW on August 3, 2023 at 11:10 AM. Witness is a Certificated Flight Instructor at Legacy Flight School and was holding short of runway 15 and first in position for takeoff while N860TW was landing.			
According to the witness, Cessna 172, N860TW landed and bounced twice before initiating a go-around. As the aircraft started to slowly climb, it began to roll left and did not maintain altitude at which time it descended, hit the runway light and flipped over.			
The witness could not assess if the aircraft was in an uncoordinated position but stated that winds were prevailing from the right and were gusty.			
The witness and all other aircraft returned to their respective starting points since the airport was closed due to the accident. The witness had no further information to provide. The interview was conducted on August 4, 2023 from 1:39 to 1:45.			
Information was provided of witness by Chief Instructor of Legacy Flight School.			
CONCLUSION, ACTION TAKEN, OR REQUIRED No further action taken.
