

Brian Rutt
Air Safety Investigator
Central Region

Date: September 15, 2023

Subject: CEN23LA386

Contact: Alan Draper

On September 15, 2023, Mr. Draper was contacted via telephone to discuss his accident involving gyroplane N57AR. Mr. Draper stated that there were no mechanical malfunctions or failures with the gyroplane that would have precluded normal operation. I obtained his email address to send an NTSB Form 6120.1 Pilot/Operator Aircraft Accident/Incident Report. The pilot did not respond to multiple emails and phone calls after our initial phone conversation. Mr. Draper did not provide the NTSB with a completed NTSB Form 6120.1 Pilot/Operator Aircraft Accident/Incident Report.
