Subject: CEN24FA101 - Additional Witness Statements

This is a summary of witnesses and family statements not covered by law enforcement statements:

- A family member reported that the pilot would frequently fly above the ranch in his helicopter. However, the pilot and recently completed building the accident airplane in September 2023 and was flying it in the same manner above the ranch.
- A family member reported that the pilot was aware of the towers and had installed five or six of them about six years prior in hopes of future wind turbines. The pilot would often circle the accident tower in his helicopter.
- A witness reported that the airplane overflew the ranch headquarters and continued along a gas pipeline right-of-way to the southeast towards the tower.
