Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

The tail wheel of my airplane was knocked off, the other plane was totally destroyed

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I had taken off and had gone east 2 miles when I saw the other plane approaching headed southwest right on top on me, coming straight at me, I pulled back on my elevator controls to try to prevent impact and at first thought it did but I felt a rough impact for a moment, I then made a circle to the right and saw the wreckage and fire and knew it was very bad. I continued east to the rice field and spread the fertilizer and returned to my airstrip and landed. After touch down I realized I had no tailwheel
