NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At approximately 19:20 CST a private certificated, instrument rated, pilot accessed aircraft N23107 without authorization. At 19:59 CST the aircraft took off from KADS and conducted one lap in the pattern before departing to the East. Shortly after departure the pilot alerted KADS Tower ATC that he would no longer follow their instructions and would be discontinuing radio communication. The pilot told KADS ATC that he would be pulling communication circuit breakers and flying to the East. Aircraft was flown East for approximately 30 minutes followed by a 90 degree turn to the North, flown for about another 30 minutes. At just over 10,000' and about 1 hour and 10 minutes after the initial takeoff N23107 entered a steep descent for approximately two to three minutes followed by a high speed impact with the ground in an open field.
