NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

ON THE AFTERNOON OF 2-6-24 at @ 7:00pm I dropped my SON OFF and fueled my R44 (4054Y) Heli and TOOK back OFF FROM KTUP. I headed East toward my house. I CLIMBE to @ 1100 MSL. shortly after leaving the Delta AIRSPACE I spotted my lighted landing AREA. Because OF the darkness that night I had flown in high to avoid contact w/ Trees in the AREA, then TO LOSE ALTITUDE I made a couple OF turns CIRCLES around the landing site then turned to the south down the lake to make a final descent. USUALLY I am able to catch reflections OFF the water but on this night it was extremely dark and I was unable to see the water below. Once I realize that I was not able to judge my distance to the water below I made the decision to return to KTUP for a better lighted landing. At the same time

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

the tail rotor contacted the water. I immediately pull up. The heli come up @ 10' then began to spin to Right. Realizing that an uncontrollable spin at this altitude would only get worst I cut power, dumped the collective and moved the cyclic to the Right. 4054X went in the water Right skid first, the top Rotor blade struck the water on the Right side of the Heli stopping the Rotation. I was able to kick out the Front windshield and swim to shore.
