Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Front nose gear collapsed causing prop strike. Right wing tip struck runway causing the wing to have a skin wrinkle at about 1 foot in from the tip.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

- 1- Around 17:10 I dropped off my instructor back at Hub City after 3 safe takeoffs and landings.
- 2- Listened to ATIS and got clearance to taxi to Runway 17R at S via L, S for closed pattern work/ first solo.
- 3- Around 17:20 I was cleared for takeoff Runway 17R.
- 4- Normal takeoff, and climbed straight ahead after ATC said to extend upwind.
- 5- Made right traffic after ATC advised and reached pattern altitude (~4300ft MSL) at beginning of downwind.
- 6- Cleared for the option #2 after traffic in sight off right wing past the end of the runway.
- 7- Advised wind had changed, now being 130 at 15.
- 8- Turned base and put in first notch of flaps.
- 9- Turned final and got on centerline/ glideslope and put second notch of flaps.
- 10- Normal landing, used rudder to stay on centerline.
- 11- Put throttle back to full power.
- 12- Checked engine instruments in the green and airspeed started coming alive.
- 13- At least 5 seconds had passed after putting full power and airspeed was getting close to rotation speed.
- 14- Still on centerline, I began to increase back pressure on the yoke so nose wheel starts to come up.
- 15- Must have not pulled back enough to commit to getting airborne, as plane bounced and wobbled.
- 16- I couldn't correct for this instability, and the plane veered hard left off the runway and crashed to a stop in the grass.
- 17- Around 17:30 I radioed telling tower I crashed off Runway 17R prior to S.
- 18- Fearing a fire, I turned off everything except master and avionics and unlatched the door.
- 19- Waited for fire department to arrive and packed up my belongings and the can/keys.
- 20- Put the flaps back up and exited the plane normally when they advised me to do so.
