Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Minor damage to concrete block retaining wall. Substantial damage to all aircraft fuselage structure forward of the cabin doors, cowling, nose landing gear, engine exhaust, air intake, and alternator. Damage to pilots seat and aircraft floor at seat attach points. Minor damage to right hand wing tip.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

As a representative of the owner of the aircraft, from statements to me from various sources, i understand the pilot to have rented the aircraft for a personal flight from Bemidji MN to Stanley ND and to return the same day. I understand the aircraft to have departed KBJI with full fuel tanks, and i understand the pilot to have added 16 gallons of fuel in Stanley ND for the return flight to KBJI. On the return flight to KBJI I understand the pilot was cleared for an approach at KBJI and handed off to advisory frequency. I understand the engine subsequently quit and the pilot tried to land on a road.

Additional information will need to be supplied by the pilot as he recovers and can communicate more clearly.

RECOMMENDATION (How could this accident/incident have been prevented?)
