NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On the ground at KMGC I decided to do some grass field takeoff and landing practice. Normally, I utilize grass runway 9-27 at KOXI, but it was closed for repairs. Utilizing my current flight planning app WingX, I decided on grass runway 20 at Watervliet 40C. The "remarks" section in the Airport Information and Notams stated "field could be soft in the spring months". There had been little or no rain in the previous week, but I did make a mental note to look for any signs of excessive water standing in fields or terrain enroute. There were no NOTAMS for poor field conditions. I self briefed utilizing my phone hotspot with the WingX app. I also utilize a Stratus 3 ads-b for inflight weather and traffic. I departed KMGC for 40C. I monitored the CTAF 122.9 and listened to the listed ASOS 121.55 (KBEH). I announced position and intention for landing at Watervliet approx 10 miles and 5 miles out. Approx 2 miles out I stated I would enter left downwind for runway 20, Watervliet. I heard no other traffic on CTAF and ADSB display showed no traffic near airport. I reported downwind on the radio and checked windsock, west southwesterly winds. There was no standing water on the runway and it appeared usable. I decided a wheel landing would be appropriate due to the cross winds. I reported base and final positions and performed a stabilized approach. Upon touchdown and rollout the aircraft decelerated rapidly and the tail began to rise. I applied full aft elevator but the aircraft continued over on its nose and back. I was not injured. I turned off the fuel, mags, and electrical equipment and exited the airplane. I then notified the FAA by phone. The airport manager was also notified.
