Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

IMPACT DAMAGE LOWER RIGHT WING

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Aircraft taxi South on taxiway A toward runway 36 following Piper Warrior approximately 200' ahead fish-tailing as I taxi to keep track of traffic. Aircraft ahead of the Warrior was a light twin headed North (opposite direction) on taxiway A doing an engine runup. At some point, the Warrior I was following made a 180 turn, taxiing North toward my aircraft to position on the West edge of taxiway A. I failed to observe that maneuver and impacted the right wing of the Warrior with the bottom right wing of the Stearman at about 10 mph. There was no hammerhead or run-up area for runway 36 on taxiway A. No fire was observed and no injuries sustained. I advised the ground controller of the mishap. No emergency equipment was dispatched. The airfield manager was notified and made a report to the Kansas City FSDO. Pictures were taken of both aircraft. Per the airfield manager we were cleared to move our aircraft. Ground transportation was secured for the passenger. After careful inspection of the Stearman, I determined it was safe to taxi the airplane back to the CAF hangar.
