Good morning Gents,

I unfortunately do not have documentation of those parameters. I also do not have the data from the aircraft of our post maintenance run-up parameters.

Respectfully,

Subject: N87AQ

Good morning George,

Were you able to find the unmetered pressure values, MAP values, fuel flow @2500rpm, and idle rpm rise from the last 100 hr inspection for N87AQ?

Thank you,

Brian Rutt
