NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Intersection of County road H and S Galena road.
500 ft north of County road H and 100 ft west of S Galena road.

I was spraying the field south of the intersection as well as the field northwest of the intersection as one. Pattern was back to back, every other row, from east to west. One load truck was set up on Galena road perpendicular to the road. A second load truck had arrived to transfer product and fuel. I had made the initial passes, which included a pass over the wire I would later strike, and was in the process of filling in the skipped rows. My last pass east of S Galena road was northbound. While flying over S Galena road I noticed a car which was blocked by the load trucks. I turned southbound and set up on the next line. I glanced over to see what the truck drivers were still transferring and if they noticed the blocked traffic. At the moment I came back the wire struck the helicopter. Both windscreens were shattered and the aircraft shook violently. I lowered the collective. The shaking smoothed out, the aircraft slid into the bean field, caught the skids, and rolled forward. It came to rest on its left side. I expeditiously released my harness, exited the aircraft through the windscreen, and made my way to S Galena road.
