** Prices are subject to change without advanced notice and may vary from original quote. For uplifts in Canada, the Canadian Carbon Tax is a separate fee from the quote and varies based on Province/Territory. Prist, if requested, may result in an additional charge. Everest will invoice the customer based on the price in effect at the time of the fuel uplift. Payment method listed above must be followed at each location for fuel purchases. International locations are quoted with taxes/fees to the best of our knowledge, but some taxes/fees may be unknown at the time of this email. Note that for international exemptions, it is the operators responsibility to show commercial operators certificate at time of fueling if applicable. Ramp/handling and other miscellaneous fees are an estimate only and should be confirmed with the FBO based on the aircraft prior to uplift. The above quoted price assumes that the customer and/or authorized agent are taking an available 3.75% cash discount and thus paying Everest Fuel, LLC in another form other than Visa, MasterCard, or American Express. Otherwise, the 3.75% cash discount is forfeited.**
