

Alex Lemishko
Senior Air Safety Investigator
Central Region

Date: September 4, 2024
Subject: CEN24LA332
Contact: Tina M. Primus (Pilot's Spouse)

Excerpts of message sent to Investigator Lemishko

- The pilot purchased the trike on August 13, 2024, and spent the next few days reviewing the trike and assembling the trike.
- The pilot took the trike out once to "get a feel" for the runway and the performance and flew the trike about 10 ft above the ground.
- The pilot had coordinated with the individual he purchased the trike from to help him learn to fly the trike
- She was aware that he would try to fly on September 2nd. She received a text message from him around 1115 indicating that the other pilot had arrived. There were no other communications with him.
