DAMAGE TO AIRCRAFT AND OTHER PROPERTY**Aircraft Damage**

- ☐ None ☒ Substantial
☐ Minor ☐ Destroyed
 ☐ Unknown

Aircraft Fire

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Chordwise crack found near root of 1 main rotor blade

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The aircraft was being flown in support of powerline maintenance work. Operating from an off airport landing zone, and conducting Part 133 Class B cargo delivery to a powerline structure approximately 300 yards from the landing zone. At approximately 1400 hrs local time an intermittent and unusual vibration was noted in the aircraft, and the aircraft was landed at the landing zone and shut down for inspection. While awaiting the company mechanic to arrive, the chief pilot and pilot in command inspected the rotor system and immediately noted a chord wise crack near the root of the yellow rotor blade.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

This was a mechanical part failure, These blades have AD's on them for this specific problem. HPS follows all manufactures inspections, part retirement times, and AD compliance. Other than having two sets of eyes look at these blades(which would be pilot and mechanic) not sure what other steps HPS could implement to prevent this.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Main rotor blade, MD Helicopters, 369D21100-523, 009999-k364, chordwise crack near root fitting of blade.
