Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Right Before I flared I put in my wind correction (left aileron, right rudder) then I touched down with the nose straight down the runway. I started to brake and started veering left. I stopped pushing on my left brake & rudder and ~~stopped~~ continued to press on my right brake & rudder. I continued going left and ~~was~~ I hit the taxiway echo sign. I jolted forward accidentally pressing the throttle in, and then I immediately took it out. I rolled through the grass and called tower stating I had crashed. I turned the avionics off, then pulled mixture, took out the keys, and turned off the master. I then turned the master & avionics back on to continue talking with tower. I exited the Cessna when the fire department arrived.
