MEMORANDUM OF RECORD

Date: 11/27/2025

Subject: CEN25FA019 - FALCON Replay Summary

A provided FALCON replay for the radio tower collision revealed the replay began about 30 seconds prior to the collision. The replay displayed the accident helicopter, identified as "N1KE", the other NHS helicopter, identified as "N233JD", and a commercial airplane. The accident helicopter's flight track was overlaid onto the replay along with the radio tower depicted as a large chevron symbol. The air traffic control audio communications were included with the replay. Figure 1 shows a screenshot of the FALCON replay display.
