Mr. Middlebrook stated that he had flown an aerial observation flight and was returning to Pearland. While approaching runway 32, a pilot holding short of the runway announced over the CTAF that the Grumman was landing immediately behind him. Mr. Middlebrook attempted to expedite his exit from the runway onto taxiway A3 but was impacted by the Grumman on the left rear of the airplane. The left door was jammed, so he exited out the right-side door. ///END OF STATEMENT///
