Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft has bent right wing with tricycle gear torn off.
Windshield is cracked at the top in the middle. Front strut is bent.
There is property damage to about 100 ft of metal fencing.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

We took off from KAPT Marion County Airport with full tanks and flew to KRNV Cleveland Mississippi with no issues.
We departed from Cleveland, Mississippi (KRNV) at 6:15 pm with full tanks on a direct flight to F41 (Ennis). During the flight I switched tanks every 20 minutes or so to keep weight even. Approaching F41, I noticed our fuel was lower than anticipated. By that point our closest place to land was F41. I started to try and turn on runway lights but by that time we had the engine out due to lack of fuel. We landed in a field 6-8 nm from F41, in between 2 ponds ^{east} damaging the fence on the property.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have landed in KJXI (Gilmer, TX) for fuel. Landing there would have given me enough fuel to get to F41 with a lot to spare. Our direct flight path is right next to KJXI. We could have also landed at KJDD (Wood County) for fuel. Either option would be a viable option for fuel.
