UH-60M BLACK HAWK® Helicopter

Best-in-Class Multi-Mission Performer

UH-60M BLACK HAWK® Helicopter

[Multi-Role Capabilities](#) [Tomorrow's BLACK HAWK](#) [Multimedia](#) [News](#)

THE WORLD'S MOST VERSATILE HELICOPTER KEEPS GETTING BETTER

A combat-proven workhorse for the U.S. Army and allied militaries around the globe, the UH-60M is rugged, reliable, and ready for the toughest mission challenges.

With powerful twin engines, a reconfigurable cabin, and 9,000 lbs. of cargo capacity, the BLACK HAWK can transport troops, deliver supplies, and fly search and rescue, even in contested environments. It's what's made the UH-60M a trusted utility helicopter over 15 million flight hours and countless critical missions worldwide.

MULTI-ROLE CAPABILITIES

Utility version of the BLACK HAWK helicopter, with a max gross weight of 9,979 kg (22,000 lbs), transports 12 fully equipped, seated troops in combat. Sikorsky offers customization for additional mission sets.

Sikorsky UH-60M maximum gross weight, per Sikorsky: 22,000 lbs
