☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Prop was bent and scraping to underside of aircraft belly rails

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On March 20, 2025, I lifted off from Runway 17 KLBL in N38872. As I retracted the plane's gear, I heard a loud slapping sound outside the right front door. I determined the sound was coming from the seatbelt of the right seat which was caught outside the door. I decided to circle around and land in order to open the door and remediate the problem. At 3500 feet I turned left crosswind for Runway 17. At midfield I heard a radio call for an intended landing at LBL, but did not hear the aircraft's distance from LBL. I made a radio call to query his distance. While communicating with the pilot I failed to complete my GUMPS pre landing check.

When I turned on final I encountered a strong crosswind. I was concentrating on landing and did not make my final GUMPS check. I landed gear up on Runway 17.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

This incident could have been avoided by more diligent execution of preflight, inflight and landing procedures by PIC.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
