

Jason Aguilera
Senior Aviation Safety Investigator
Aviation Safety - Central Region

Date: 21 August 2025

Subject: CEN25LA274

Contact: Brent Furlow, FAA FSDO

In a telephone conversation with FAA Inspector Brent Furlow, he interviewed the pilot and explained that the pilot had completed his application to the field and maneuvered for a clean-up pass when the airplane impacted a power line. The pilot's attention appeared to be diverted observing the field and thought he was at a higher attitude prior to colliding with the power line. The flight was the pilot's third flight of the day.
