Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.				

Flew into a field to spray and I tried to get too close to a tree as opposed to flying over the top of it. I hit the tree with my left wingtip. I could've went over the tree and continued to spray but didn't want to be that high spraying. My desire to do a close to perfect job almost cost me my life.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

Fly further away from the tree and don't worry about perfect coverage of the chemical. Live to fly another day.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
