Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On Saturday, August 2nd, roughly around 4 pm I arrived at a field outside of Emmetsburg, Iowa. I was there to spray fields as an ariel applicator using a drone. After setting up the drone and conducting my pre-flight inspection, I backed away from the drone and initiated the take off. After initiating take off I stepped forward to pick up the old batteries. Upon bending over to retrieve the old batteries I felt as if the drone was too close to myself, causing me to put my hands up in front of my face to protect myself. This is when contact was made between my hands and the propellers. After contact the drone successfully landed back on the ground. After seeing the injury to my hands I called 911 and received appropriate medical attention.
