NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Pre-Flight Activities

On Monday, Aug 25, 2025 at 7:43 PM, I sent a text message to Carley, my CFI, stating my intention to fly on Tuesday morning between 7:30 AM and 9:00 AM. Carley replied, confirming that the weather and NOTAMs looked favorable for Tuesday morning.

On Tuesday morning, I awoke at 6:00 AM and performed a thorough check of the weather and NOTAMs. Conditions were calm and no active NOTAMs.

I arrived at the airport at 7:00 AM and completed a pre-flight walkaround of the aircraft, ensuring everything was in order.

Taxi and Departure

I proceeded through all pre-taxi checklists and began taxiing towards runway 27. I stopped before crossing runway 27-09 and made a radio call announcing that I was crossing the runway and continuing to taxi to 27.

I then stopped before crossing runway 18-36 and radioed out that I was crossing 18-36. At this point, I noticed a truck on the taxiway. A gentleman subsequently got into the truck, moved it off the taxiway, and waved to me.

I continued to the end of the taxiway, where I completed my run-up and pre-takeoff checklist. I then radioed my departure, stating I was departing runway 27 to the south.

In-Flight and Approach

I flew for approximately 45 minutes. Following this, I radioed that I was 3 miles southwest of the airport, inbound for runway 27. I entered the left downwind for runway 27 and made the appropriate radio call.

At this time, I observed two trucks on the runway not the taxiway. I turned base and radioed that I was turning left base for runway 27. The trucks remained on the runway. I then turned final and radioed that I was on final for runway 27. As the trucks were still on the runway, I called out that I was going around and flew over the airport.

I re-entered a left downwind and radioed that I was in a left downwind for runway 27. Upon turning left base for runway 27, I again noticed the trucks were still on the runway. Consequently, I entered a left downwind for runway 18 and made the radio call. I then turned left base for runway 18 and made the radio call, followed by turning final for runway 18 and making that radio call.

Consequently, I entered a left downwind for runway 18 and made the radio call. I then turned left base for runway 18 and made the radio call, followed by turning final for runway 18 and making that radio call.

Landing and Incident

I touched down at the markers before runway 27-09. Immediately after, I hit a bump on the grass runway, which caused the aircraft to become airborne again. At this point pilot-induced oscillation may have occurred, leading to the plane porpoising two times. On the final porpoise, the nose wheel collapsed, and the aircraft skidded to a stop.

I immediately shut down all systems and exited the plane.
