NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Preflight aircraft, Fuel Check full, Oil check 6 1/4 qts. Started aircraft warmed up and taxied to runway. Private grass strip [REDACTED] [REDACTED] Mag and electronic ign chk, good, engine gauges in green, took off flew around for about 30 minutes. Headed to LHB airport. Radio calls for traffic on down wind ,about mid field made another radio call then heard cracking sound in radio. Both Dynon screens went out, engine stumbled then came back then went dead. I then cut fuel to off, turned master off and did a 180 to land on Runway 18. On flare, outside smoke entered cockpit, I looked out side windows and completed the landing and stopped centerline of runway. Flames started shooting up right side of aircraft. Exited and a friend at airport heard me calling him to bring a fire extinguisher, started putting out fire and called 911 for fire department. Went and got a second fire extinguisher to completely put out fire. Moved aircraft off runway after fire department watered it down. Removed top cowling, unhooked battery and drained fuel from aircraft. Then Called NTSB.
