Hi John

It didn't fail- very stiff and difficult to determine position.
I thought I had turned it as far as I could. It wasn't far enough.

Hi Tim,

I got your report and had a question.

The fuel selector. Did it "fail", or was it a case of it was stiff to operate and difficult to discern the detent positions, but otherwise operating okay?

Thanks,

Mr. Tim Lynch,

I am the NTSB Investigator assigned to the accident involving N851FH, a Van's RV-6 airplane, that was involved in an accident near Cambridge, MN, on September 25, 2025. I understand that you were the pilot of the airplane during the accident. I am attaching the NTSB Pilot/ Operator Accident/Incident Report Form (6120.1) for you to complete in response to this accident. You can return the completed form to me via return e-mail (preferred), or by regular mail to the address below.

Feel free to contact me if you have any questions.
