NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)					
Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.					
I departed Pueblo, enroute listened to ASOS for La Junta (KLHX). I flew over mid-field 500ft above pattern altitude, entered the pattern. I made the appropriate radio calls on CTAF for La Junta. I proceeded to land on Runway 08. When I landed, I bounced and tried landing again. I'm not sure how many times I bounced if it was once or twice, but on final bounce the left main tire went off the runway causing the rest of the plane to veer off the runway. I tried stopping and was unsuccessful. The aircraft proceeded to flip over on the nose and ended up upside down. *Conditions were clear and dry.*					
OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)					
In hindsight, I should have probably done a go around, but thought my approach was stable enough to land.
