### Statement of Facts:

I was in the office in the hangar and aware that [REDACTED] was attempting to start his small aircraft so that he could fly home. Several other Squadron members were out there with him and they were having to put some effort into getting it started. I had looked out a couple of times. When I heard the engine crank up real loud I looked out a nearby window and saw the plane moving forward and lifting off the ground. As it was lifting and advancing forward I

saw "something", quite large fall to the tarmac. And the plane continued to lift and flew up over the runway. I then heard the engine failing and saw the plane crash land into the fence on the far south side of the air field. I then saw several people running to the "thing" which fell, and I realized that it was the pilot who had landed on his back and his head was bleeding.

### Statement of Facts:

I heard the plane's engine start and saw it moving from its parked position in front of the hangar. But I was working in the south east corner of interior of the hangar and had only a view of the tail of the plane through one open hangar door and did not see any people involved.

I walked quickly out of the hangar and saw the plane taxiing fast across the taxi way and runway heading west from hangar (perpendicular to the runway). Then I saw [REDACTED] on the ground and [REDACTED] kneeling next to him.

I immediately called 911 and related the details requested by the dispatcher. Ambulance and fire truck arrived at the scene very soon, with Burnet P.D. in the lead.

This is my statement regarding the accident.
