

Ezra Olson
Aviation Accident Investigator
Aviation Safety, Central Region

Date: April 28, 2026

Subject: CEN26LA076 Accident Communication Attempts

Contact: Pilot, Pilot's Wife, Pilot's Son, Maintenance Facility

This NTSB investigator attempted to contact the pilot multiple times via phone and email to receive a statement and further details about the accident with no response.

On 1/13/2026, sent an email and phone call request for information to the pilot's wife and also the pilot with no response.

On 1/22/2026, called the pilot and left message.

On 2/11/2026, spoke with the pilot's son one time and received minimal details about the accident. The pilot's son has not provided additional details or status updates for the pilot.

This investigator attempted to contact the maintenance facility Barrett Precision Engines which reportedly completed the engine overhaul multiple times and left messages on 4/03/2026 and again on 4/28/2026, with no response.
