NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Take off from RWY 3. I was rotating and felt a slight vibration, controls were "mushy", and a list to the left. I decided to abort take off and land with wings level which was in the grass. While slowing down, the aircraft impacted a ditch on the airfield causing substantial damage. No injuries to anyone on board and only property damage to airport was to the wet ground. ELT did not trip possibly due to low impact.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

Higher than usual takeoff speed which was already increased for additional weight.
