Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Damage to left wing outboard 8 ft and separation of left main gear from aircraft. Prop strike in dirt on 2 blades.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Cross country flight from Pontiac, IL KPNT, and intended destination of Lamar, CO, KLAA. A fuel stop was planned at Beloit, KS, Moritz Field K61 as I did not have enough fuel reserves with the winds that day, March 27, 2026. Beloit AWOS indicated winds were variable from 030-040 at 18 with gust to 23 when I listed to the weather as I approached the airport. Flew a normal pattern without incident and final approach was stable. On short final the winds were gusting and I felt it in the aircraft but I didn't feel uncomfortable with it. Touchdown was on the centerline and as the tail came down, the aircraft immediately began a turn to the left and the right wing began to lift. I believe I added right aileron and left rudder and brake to try and straighten the aircraft and stop the turn. The left wing tip contacted the ground and the airplane struck the edge of the runway surface where the grass started and the left gear separated at that time. The aircraft came to a sudden stop at this point. I immediately opened the door for the passengers to get out and at the same time turned off the avionics master, beacon, strobes and then the master switch, I then turned the magnetos to the off position and removed myself from the cockpit from the right door as there was not enough room to egress from the pilot side door. Pictures are attached.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Should have chosen to use the turf runway that was oriented more directly into the wind.
