Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

Structural damage to fuselage, wings, Loss of landing gear (nose + main) Prop strike. Busted motor mount, significant damage to cowling and bottom of fuselage.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I departed MUE @ 18:40 Central on Runway 140 on a local flight. When I returned I entered a left downwind for Runway 140. I slowed to 100 mph and did my prelanding checklist and added 1 notch of flaps. I turned on base, slowed to 90 mph and added a second notch of flaps. Upon turning final I added a third and final notch of flaps. At 80-85 mph, I added power to stay on slope for final at which time the engine started to miss and bog out. I added carb heat, then the engine went silent. I attempted 1 restart with no results. At this point I concentrated on gliding to the best possible spot. I flared and landed at the edge of a corn field and traveled 50-60 ft and stopped when the plane struck a grass burn. @ 19:35 central.
