Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

This is what I believe happened: Flight was normal until application of the motor stowing procedure. This caused the propeller to windmill causing a rapid reduction in speed and a stall and spin. I was unable to control the aircraft and deployed the aircraft's ballistic parachute. When the aircraft stopped, I secured the aircraft systems and exited the aircraft.
