Flight Data Recorder Errata

Specialist's Factual Report
By Christopher Babcock

1. EVENT SUMMARY

Location: Nashville, Tennessee
Date: December 15, 2015
Aircraft: Boeing 737-300
Registration: N649SW
Operator: Southwest Airlines
NTSB Number: DCA16LA032

On Tuesday, December 15, 2015 at 1725 central standard time, Southwest Airlines flight 31, a Boeing 737-300, N649SW, departed taxiway T4 and came to rest in a ditch at the Nashville International Airport, (BNA), Nashville, Tennessee. The passengers evacuated via the emergency slides. The aircraft was substantially damaged and nine passengers sustained minor injuries. The flight was a regularly scheduled passenger flight from the William P Hobby Airport (HOU), Houston, Texas. Night visual meteorological conditions prevailed at the time of the accident.

2. Errata

Table A-1 should include the following insertion after row 13:
