

Internal Memorandum

Date: 01/15/2025

From: KATILIN FISHBURN

Subject: Passenger Evacuation Investigation: Flight 2668 (ATL-MSP), B757-300 (Ship 5809/N589NW), 10 January 2025

After deicing, we headed to the runway. The captain made the normal announcement, "Flight attendants prepare the cabin for departure." We turned on the runway. At first, it felt like the plane had slid because it was a little hesitant. We took off and then we started to slow down and the plane made a strange noise. I was in my jumpseat when I received a call from the flight leader that the right engine had caught on fire. I told the flight attendant next to me. Then, all of a sudden, announcement started shouting commands came on and we shouted "Bend Over Stay Down." The next command came on and we opened the door and grabbed the flashlights. I opened the 2L door. We told everyone "Come This Way Leave Everything! Jump and Slide!" After everyone evacuated, we went through the cabin and searched for anyone. We then evacuated ourselves with the pilots after verifying everybody was out. We went to the stay zone with the other passengers and listened to what the firefighters were telling us and did a head count.

I acknowledge this statement may be released to Delta Flight Safety and the US National Transportation Safety Board (NTSB).

Regards,

KAITLIN FISHBURN
