

Internal Memorandum

Date: 01/15/2025

From: LOUISA VANESSA HIUHU

Subject: Passenger Evacuation Investigation: Flight 2668 (ATL-MSP), B757-300 (Ship 5809/N589NW), 10 January 2025

After the de-icing in Atlanta, the Captain said we were number one for takeoff and we took our jump seats. During the acceleration, we abruptly stopped. Someone called the flight attendant sitting next to me and told her the right engine and wing was on fire. Kaitlin whispered it to me, as not to alert the passengers sitting in front of us. We got in to brace position and when prompted by the Captain, we began shouting our commands. The pilot sitting near the 2R jump seat opened the door and we began evacuating and instructing passengers where to go.

I acknowledge this statement may be released to Delta Flight Safety and the US National Transportation Safety Board (NTSB).

Regards,

Louisa Vanessa Hiuhu
