Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

There was no damage to the aircraft.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Injured Flight Attendant Statement:

During cockpit procedures both the CA and FO mentioned to me that we might hit some turbulence on approach, and it would be a good idea to wrap things up sooner than later. I don't recall if the seatbelt sign was already illuminated or not at that time. I started heading back to close my galley after they returned to the cockpit. I passed Taylor and Tisha about halfway through the aircraft as they were making sure the passengers were secure, and compliance was done. Usually, when we are told to wrap things up because it might be turbulent, we still have time to get the entire galley in order and sit down. This was not the case this time. I had just begun to reach for the coffee pot to empty it when the first round of SEVERE turbulence hit. Taylor and I as well as a passenger who decided to use the lavatory were thrown to the floor. We told the passenger to stay down as we were being thrown up into the air once again. We each held on until the turbulence got a little better. Once the turbulence subsided, the passenger was able to get back to his seat. Taylor seemed to be okay. I was not. Taylor then helped me onto my jumpseat. We remained in our seats the remainder of the flight. I called Judy to inform her that I would need medical assistance. I was in extreme pain and both my feet were swelling up alarmingly. Upon reaching the gate, Taylor took care of what she could in the galley as well as disarming my door since I was unable to do so. After the passengers deplaned, the medics took me off and eventually, I was taken by ambulance to [REDACTED]. The doctors determined that I sustained a fracture in my left foot, multiple fractures in my right foot as well as a fracture in my tibia. I also have overall pain from the trauma as well as a tailbone fracture or bruise.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

Injured Flight Attendant Recommendation:

With the information that I had been provided, I don't believe this could have been avoided. After speaking with Judy, I was led to believe there was a bit more urgency since she was told to prepare the cabin and sit down. I did not personally hear this verbiage, but we still did not have enough time to get secured before the turbulence hit us therefore, I still do not believe the event could have been avoided.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
