Accident Statement

On 27 June 2012, I began a flight from KMBT to KQMY for the purpose of doing three solo take offs and landings at a towered field. On approach to runway 14, I began a normal descent and was over the middle of the runway. Some turbulence pushed the aircraft (Cessna 172), and I attempted to compensate. The plane began to porpoise, and it bounced on the runway several times. On the last bounce, there was a prop strike and the front tire blew. At this point, I maneuvered the plane to the side of the runway and stopped, turning off the engine.
