He left the airport that evening at about 8:00 P.M. I will have to ask the lineman that was on duty early that friday morning as I got to the airport about 10:00 A.M. I will find out on Monday and get back to you. Thanks.

Best Regards;

Thanks very much Rory. If you could estimate what time he left that evening and what time he arrived at the airport the next morning, that would be helpful.

Subject: Adreas Wendel

Hello Ralph;

I recently visited with my part time linemen about when Adreas Wendel (N21750) came in. They only knew just about the same thing that I did. Adreas bought fuel, took on 28.2 gallons of 100LL. We tied the airplane down late that evening. This was on Thursday, September 20, 2012. He barrowed the gold cadilac courtesey car and after a short visit with us of which we found out he was from Switzerland. He then headed into town for dinner and a hotel room. He mentioned that he knew a elderly couple in Florida who had once lived here at Woodward Oklahoma and he wanted to see what Woodward looked like. He said the elderly gentleman had passed away and I think he mentioned the woman was now in the nursing home.

He came back out on Friday, September 21, 2012. visited with the lineman and left. He was a very friendly gentleman and thanked us for our hospitality service. He said that he loved the smaller airports as they treated the customers right. I hate to hear of his passing.

If I can be of service on anything else please let me know. Thanks for contacting us.

Best Regards;

Rory Hicks/West Woodward Oklahoma Regional Airport Manager
