

MEMORANDUM OF RECORD

Heidi Moats
Investigative Assistant
Eastern Region Aviation

March 24, 2013

Subject: ERA13CA181
Name: Doug Karlsen - Pilot

In an email, Mr. Karlsen stated the following:

Today I was taxiing to a tie down, storm rapidly approaching, micro burst picked up the tail of the plane and flipped it over. The wind also blew a hanger door off. Anyway, non flying incident, no injuries. Plane probably totalled. Wing bent, tail smushed. I tried to call FSDO about 50 times, phone always busy I removed the plane from the runway, seemed pointless to leave it on runway. Incident at X21 Dunn Titusville. N7113G. If any other reporting required please advise. thank you, Douglas Karlsen
