Case Number: B13-18422

Date & Time: 052713@1829hrs

On 05/27/13 at approximately 1829 hrs, I was dispatched to the Feagin Rd. area in reference to a possible plane down that was called in by Houston County S.O. As I made my way to the scene, I got behind a Houston County S.O. Patrol vehicle in the area of Hwy. 247 near the Kohl's Distribution Warehouse. I followed him to the south end of Feagin Rd. where we were met by two Warner Robins P.D. units as well as a Houston County Fire Dept. vehicle. We all turned on St. Clara drive and began making our way to the dead end. As we arrived at the dead end, I noticed several Houston County Fire Dept. vehicles on site already. I spoke to a Warner Robins Police officer who stated that a plane had crashed and it was deep in the wooded area just south-west of St. Clara Dr. I notified my immediate supervisor, Lt. S. Jordan, who advised that he would make the notifications as far as the chain of command. Dep. G. Thomas and I began to make our way from the dead end toward the site of the crash. We were able to get approximately 100 yards away from the crash and the marsh got very deep. There were already several fire personnel at the plane so we decided to turn back and try to assist at the road with crown control. I made contact with the witness, Chris Reynolds, who was making his way from the site to St. Clara Dr. He told me that he had been landing another plane at the airport when he heard a distress call apparently from the downed plane. Once we got back to where the vehicles were parked, I asked if he could give a statement. He stated that he was too tired to write a statement, but he did agree to a recorded statement. I recorded the witness' statement on my telephone. In his statement, he said that he was speaking with Atlanta Approach when another pilot came on the frequency asking for a diversion to the Macon Airport. The unidentified pilot stated that his oil pressure was low. The pilot came back on frequency stating that his engine had quit and wanted to know if it would cause problems for him to land at Robins A.F.B. Macon tower then contacted Robins tower by telephone and Macon tower called the pilot right back asking him to notify Robins tower on their frequency. Apparently the pilot tried to contact Robins tower, but stayed on Macon tower frequency. Macon tower advised that the pilot had the wrong frequency and that he would need to go to Robins tower frequency. The witness stated that he was listening to both frequencies and the pilot never made another transmission. Approximately 30 seconds later, the witness saw black smoke rising up from the ground. He stated that he advised Macon tower that he saw black smoke and asked if there was anything he could do. He was instructed to fly over the site and confirm whether it was a plane down, which he did. He circled the crash 4 times and radioed Robins tower that the plane was down and there would probably be no survivors. He then landed his plane and got into his vehicle

and drove to the crash site. Several agencies assisted in the rescue-recovery effort. Units from the Houston County Fire Dept, Houston Medical Center, Robins A.F.B. Fire Services, Houston County S.O, Macon/Bibb Fire Department, and Medical Center Ambulance were on scene at different points during the afternoon into the evening. The personnel from the Houston County Fire Dept. that went to the site are as follows. Robert Murry, Rodney Pickle, Jonathan Holland, Ray Allen, Steven McDuffie, Brett Meador. The personnel from Robins A.F.B. Fire Service were Rusty Adams, Keith Allmond, Alan Lee, Angel Caronbot, and Todd Surber. The Macon/Bibb Fire Dept. personnel were Capt. Todd Alligood, Capt. Davis, Sgt. Freeman, and 13 other privates. Coroners Jones and Miley arrived along with Forensics Deputy Mark Schultz. All of whom went to the crash site. The 2 unidentified victims were removed from the wreckage and transported by the coroner to the crime lab. The scene was turned over to investigators from the F.A.A. and the N.T.S.B.
