NAME (S) OF PERSON (S) CONTACTED OR IN CONFERENCE AND LOCATION		ROUTING	
		SYMBOL	INITIALS
Anthony Radelat (Pilot)			
Thomas Kuhns (SO19 ASI)			
SUBJECT Accident Investigation of N2549W on March 16th 2013			
DIGEST The following is a summation of a phone call with Mr. Radelat who was at Lee County Memorial Hospital undergoing continued treatments as a result of the accident.			
Mr. Radelat took off from IMM and headed West towards the beach. Weather was clear, cool and little to no wind. His route took him close to Fort Myers Beach and then started heading back towards IMM. He was flying along at approximately 1,000' and he encountered a gust of wind moving the aircraft side to side and forward and back. He applied power in attempt to climb while working the controls to counter the wind. He stated that the aircraft did not perform or climb as expected, it turned right and went into the trees. He did not recall if the engine RPM increased or stalled when the throttle was opened. He landed upside down with fuel spilling on him. He was able to gain access to his cell phone where he called 911 to guide him to his location.			
CONCLUSION, ACTION TAKEN, OR REQUIRED
