Good Morning Stephen,

On July 15, 2014, I received an incident assignment involving N39ZT, which was later upgraded to an aircraft accident due to the extent of damage sustained. The incident / accident (ERA14LA349) occurred on July 10<sup>th</sup>. By the time I received the assignment the aircraft had already been removed from the accident site and the owner had performed work on the aircraft. Due to different variables associated with this accident an on-scene response was not granted.

Should you have any questions or concerns, please contact me.

Best Regards,

Kevin F. Willis

Hi Kevin,  
[REDACTED]

We are getting ready to submit this one up the chain for review. I understand you didn't go out on this one, but could you send me an e-mail with confirmation for our records?

Thanks,
