Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Because of embedded thunderstorms along my route, I cancelled IFR and notified Jacksonville Center I was diverting VFR to Gainesville to wait out storms. GNV tower cleared me for straight in runway 11 approach. This approach was like most of the @ 1,000 landings I have made in this aircraft. On touching down, aircraft porpoised and substained partialled collapsed nose gear. Right engine substained a prop strike. I taxied off the active runway. Notified Tower of incident and shut engines down. Called my insurance company.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Not sure. every thing about the approach and landing was just like the hundreds others I've made. Not sure why aircraft porpoised.
