Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage immediately apparent to the plane: bent propeller, damages to cowl, broken engine supports, left wing damage, landing gear broken off; fire wall damaged.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Statement of Danny Keeton, pilot, regarding N41224 on August 23, 2014

Attempting to land on 1600 feet grass strip at 58KY. Using short field techniques. Sixty miles per hour on final approach. Approximate touchdown was 50-100 feet from approach end of runway, aircraft failed to slow down when the brakes were applied (skidding). Applied full power for go-around. Aircraft engine hesitated, and then engine came up to full power. Rotated aircraft at end of runway. House under construction in line with the runway end. Didn't feel that I had enough altitude to clear the house. A small tree at the end of the runway. Did very shallow right turn, enough to clear the tree, but that put us in line with trees on the right, to avoid those I did a shallow left turn. After the left turn, the aircraft cushioned out and hit the street, which broke the wheel off, aircraft nosed down and propeller hit the ground. Plane came to rest on the lawn of 194 Curtis Way, Finchville, Kentucky. Local authorities were contacted.

No other aircraft, vehicles, structures, plants or animals were involved. No injuries to the pilot or passenger.

Factors: Wet grass strip.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

By landing on another runway or not flying at all that morning. When the plane didn't slow after the brakes were applied, an accident was inevitable. The brakes were checked pre-takeoff and worked perfectly.
