SERVICE *No. 980* BULLETIN

PIPER CONSIDERS COMPLIANCE MANDATORY

DATE: January 18, 1995

(S/M)

SUBJECT:

SHOULDER HARNESS INSTALLATION

MODELS AFFECTED:

PA- 23 Apache
PA- 23 - 235 Apache
PA- 23 - 250/250(6) Aztec

PA- 24 -180/250 Comanche
PA- 24 - 260 Comanche
PA- 24 - 400 Comanche
PA- 30 Twin Comanche
PA- 39 Twin Comanche "C/R"

SERIAL NUMBERS AFFECTED:

23 -01 through 23 -2046
27 - 505 through 27 - 622
27 - 1 through 27- 8154030

24 - 1, through 24 - 3687
24 - 3642, 24- 4000 to 24- 5047
26 - 2 through 26 - 148
30 - 1 through 30 - 2000
39 - 1 through 39 - 155

COMPLIANCE TIME: To coincide with the next annual inspection or complete cycle event inspection but not to exceed one (1) calendar year from date of this Service Bulletin.

PURPOSE: Through the release of earlier service publications, Piper Aircraft has informed its customers of the availability of shoulder harness kits for installation in all Piper Models.

Over the years, Piper, along with the government, industry, and the public, has become increasingly aware that use of complete restraint systems (lap belt and shoulder harness) not only assists in securely positioning the pilot and passengers during critical phases of flight and in turbulence, but also adds significantly to occupant safety.

While believing that most owners are aware of the benefits of shoulder harness and lap belt use, Piper emphasizes by the issuance of this Mandatory Service Bulletin that information developed during recent years indicates that such use can be a valuable contribution to the safe operation of your airplane.

Accordingly, Piper is issuing this Mandatory Service Bulletin and strongly urges you to install and use the complete restraint system of both seat belts and shoulder harnesses for all crew and passengers each time your aircraft is operated.

This Service Bulletin is another in a series of releases which addresses the installation of shoulder harness restraints in Piper products.

This Service Bulletin provides instructions and a "Serial Number Applicability Table" to help determine and facilitate installation of shoulder harness restraint systems for the affected model aircraft.

(OVER)
ATA: 5500

APPROVAL:

The technical contents of this Service Bulletin have been approved by the F.A.A.

INSTRUCTIONS:

1. Visually inspect to determine if seat belts and shoulder harnesses are installed for every seat in your model aircraft. If seat belts and shoulder harness are installed, proceed with instruction 5. If only some or none of your seats are equipped with shoulder harness restraints continue with these instructions.
2. Refer to the "Serial Number Applicability Table" to determine which shoulder harness kit applies to which aircraft and which seat position.
3. Determine if the lap seat belt in your aircraft is of the type to accept the shoulder harness attachment. If not, refer to the appropriate Piper parts manual and order the lap seat belt as called out for shoulder harness installation. Some kits in this Service Bulletin do not include the lap seat belt.
4. Upon completion of the shoulder harness restraint installation, Piper recommends that the owner and/or operator become familiar with the use of the new restraint system(s).
5. The owner/operator should as standard procedure, use the shoulder harness and lap belt restraint systems and should advise all passengers and crew to use their systems, providing instruction for use as necessary.
6. Upon completion of this Service Bulletin make a log book entry of compliance.

MATERIAL REQUIRED:

Appropriate Kit(s) as noted on the "Serial Number Applicability Table".

AVAILABILITY OF PARTS:

Your Piper Field Service Facility

EFFECTIVITY DATE:

This Service Bulletin is effective upon receipt.

SUMMARY:

There is no applicable factory participation pertaining to this Service Bulletin.

NOTE: If you are no longer in possession of this aircraft, please forward this information to the present Owner/Operator and notify the factory of address/ownership corrections. Changes should include model, serial number, current owner's name and address.

Corrections/Changes should be directed to:
