Per our phone conversation, I had conducted a satisfactory flight review, IAW CFR 61.56, with Mr Khan on April 6th 2014. His medical certificate was current and he performed satisfactory. I do not recall his total time, but his flight time was extensive, flying many different aircraft. I complimented his performance after the review.

If you have any more questions please do not hesitate to contact me.

Regards,

Rich Wyeroski
