NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

Friday, September 19, 2014

Preflight of airplane. Took off from Mud Pond T6, R12 at approx. 5:30 pm. It was a calm, clear evening. Flew north for approx 45 minutes. We were flying the area near Ross Lake in T10,R15. I turned and started level flight to head back to Mud Pond when the engine started running rough. I thought it might be the lean mixture or icing, tried to restart and pulled the carb heat. As I put the carb heat on the engine quit and I heard a bang. Once the engine quit I shut the master off and looked for a place to land. This is a very remote area in the north woods of Maine. I was not close enough to water, however spotted a road (Thibodeau Connector Road) and it was the only option other than going into the dense woods. While trying to negotiate a turn in the road the right wing clipped a small spruce approx 25 feet off the ground and the airplane went into the ground.
